nieuwsbrief voor de bewoners van de flatgebouwen A t/m E
aan het Amerbos en Elpermeer in Amsterdam-Nieuwendam,
leden van de AVB

Nieuwsbrief mei 2023 - 6

This is the last newsletter before the summer vacation. The direction will meet again in September. We wish everyone a great holiday and hope that everyone returns happy, healthy and well rested.

- Doormats will be placed in the emergency stairwell to help keep it clean. Of course, it is not just a matter of laying doormats, but the cooperation of the users to neatly wipe their feet.
- The glass fiber cable has been installed almost everywhere now.
- Closed circuit video images will only be available at the request of the police and the direction if necessary. These are the only authorized parties.
- The firm Compier has started painting the frames on the ground floor at the back of the building.
- Following requests during the AGM for greater visibility of notices and newsletters, it has been decided to put up an information board in the emergency stairwell. Thus, everyone can read the information boards in either the lifts, the main halls, the storage area entrances, or the stairwells. Should anyone want to have their own copy, they can ask their complex commission.
- Due to the illegal use of electric outlets in the storage units and the growing number of electric bicycles, grounded outlets will be installed in all the storage units. This will allow charging bicycle batteries, but no other electric appliances can be connected.
- The direction is looking into the possibility of having the access halls cleaned with a high-pressure hose in the spring and autumn. Several cleaning companies are being approached for information.
